please do not report the images to the
Image Problem Mailbox.**

WHAT IS CLAIMED IS:

1. A method for presenting a wagering interface for interactive wagering comprising:
 - presenting a display of odds for a race, wherein the display shows odds for less than all of the runners in the race at any point in time; and
 - rotating over time the odds shown in the display so that all of the runners in the race are displayed over a window of time.
2. A method for interactive wagering, comprising:
 - receiving a selection of a multi-race wager from a user;
 - displaying horse selections for multiple races based on the multi-race wager; and
 - receiving selections of horses for the multi-race wager in an order selected by the user.
3. A method for interactive wagering, comprising:
 - receiving from a user selections of multiple players in an interactive wagering system;
 - enabling the user to toggle an authorization status of each player such that each player is authorized or unauthorized;
 - enabling the user to toggle each player on or off if the player is authorized; and
 - preventing a player from subsequently appearing in a list of potential players if that player is unauthorized or off.

10. The method of claim 4, further comprising receiving a selection of a previously

unauthorized, that enables the user to toggle each player on or off if the player is authorized, and that prevents a player from subsequently appearing in a list of potential players if that player is unauthorized or off.

14. A system of providing a user interface for interactive wagering, comprising:

```

    a user input device that accepts user
inputs; and

```

control circuitry that receives a selection of a default wager as one of the user inputs, and that automatically places the default wager on behalf of the user.

15. The system of claim 14, further comprising control circuitry that receives a selection of a track and uses the track as a default setting of the default wager.

16. The system of claim 14, further comprising control circuitry that receives a selection of a bet type and uses the bet type as a default setting of the default wager.

17. The system of claim 14, further comprising control circuitry that receives a selection of a bet amount and uses the bet amount as a default setting of the default wager.

18. The system of claim 14, further comprising control circuitry that receives a selection

of a previously selected track and uses the previous selected track as a default setting of the default wager.

19. The system of claim 14, further comprising control circuitry that receives a selection of a previously selected bet type and uses the previously selected bet type as a default setting of the default wager.

20. The system of claim 14, further comprising control circuitry that receives a selection of a previously selected bet amount and uses the previously selected bet amount as a default setting of the default wager.
